## COMPANY OVERVIEW

**Everest Healthcare Solutions** is a multidisciplinary consulting, technology, and healthcare services firm delivering innovative, data-driven solutions to both government and commercial clients. With a strong foundation in healthcare operations and enterprise technology, Everest specializes in optimizing complex systems, improving patient outcomes, and supporting large-scale program execution. The company integrates clinical expertise with advanced IT, administrative, and financial capabilities to deliver seamless, end-to-end solutions. Everest Healthcare Solutions supports a wide range of initiatives, including ERP implementation, cloud migration, healthcare data analytics, case and population health management, and workforce staffing solutions. Their experience spans federal agencies, state programs, healthcare systems, and major enterprise organizations. Headquartered in Aurora, Illinois, with operations in Tempe, Arizona, Everest Solutions is a certified Business Enterprise Program (BEP) vendor committed to delivering compliant, scalable, and high-performance solutions tailored to the evolving needs of modern organizations.
